

# Production Specialist

## Job Description

---

SectorSeven, LLC, a fast-growing wireless equipment provider, has an immediate need for a driven, detail-oriented Production Specialist in Alexandria, Minnesota.

### Key Duties

The key duties of this position include, but are not limited to, production line processing of wireless devices including device diagnostics and testing, cleaning and grading.

### Applicants must possess:

- Technical aptitude
- Experience with computer systems and wireless consumer devices/handsets
- Attention to detail
- Strong focus on work quality
- Comfortable learning new technologies
- Self-motivated with a strong work ethic
- Ability to follow defined processes

### Requirements & Skills

- Two-year degree with a focus on technology or equivalent work experience
- Wireless industry experience preferred
- Proficiency with computers and wireless devices/smart phones
- Vision acuity and manual dexterity to handle small consumer electronic devices

We offer salary proportionate with experience, health insurance, a 401(k) plan, paid vacation and personal time, as well as other benefits.
